Subject: checking on status of EI follow up items in Chatsworth office
FY16 EI target list for Sayareh as of March 31 2016.xlsx

Good morning Sayareh,

Hope you're doing well. I've attached a list of R.3 EI sites yet to make one of the EI goals. At our last meeting, we discussed work needed for the sites to meet their goals, and we wanted to check in on the status of that work.

Follow up for each facility is noted in the comments column of the spreadsheet in red. The rest of the comments are basically our notes and background information for our use, so I apologize if it's confusing, but again, you can focus on what I've highlighted in red. Follow up on the action items from our Dec. meeting will help us prepare for our next round of meetings sometime this summer.

I'll be in Florida for the next 3 weeks helping my mother recuperate from surgery, so in my absence, please contact Ajit or Steve to discuss this further.

Thanks a lot for your help Sayareh, and take care,

Latha

Ps: It's good to find someone else with a tricky name to spell – I had to check around for a few minutes to find the right spelling on DTSC's website!
